▶ ESIF - THE KEY TO YOUR FUTURE JOB !

Essential to start working life, it is strongly recommended to acquire knowledge, general or specialized, in the field which interests us, by combining theory with practice. Only a Graduate School calibrated to your needs will be able to transmit to you the knowledge that will make you grow and enrich your unique personality!

To boost your professional life as much as possible, **ESIF** provides you with assistance as a link between you and your next school, a door to solid training that will allow you to tackle the rest of your career, internationally or in China with the greatest ambitions, and this without wasting time or money researching and sending applications.

After having taken note of your wishes, **ESIF** will be able to offer you the school that suits you. With a wide range of Licenses, Masters or Doctorates and also titles registered with the RNCP, the courses are generally taught by internationally renowned teachers.

These conditions give you more chances to give impetus to your career in the best conditions.

▶ KNOWLEDGE THROUGH VIDEOCONFERENCING

Benefit

- No prior need to learn French or English on the B1 or B2 levels generally required or even compulsory for the entrance exam to the Grandes Ecoles.
- No visa / passport.
- No airfare.
- No costs for accommodation, electricity, insurance, food, internet, transport, furnishing...
- You will avoid additional costs in the face of a fairly high cost of living in France, as well as costs related to expatriation.
- No compulsory health insurance costs.
- Courses and teaching materials are available throughout the learning year in the form of video and PDF document.

Inconvenience

- Attendance and identity checks are reinforced.
- No face-to-face teaching (except for translators and some live video courses)
- More examinations and continuous checks are necessary for the relevant evaluation of the candidate.

DISTANCE EDUCATION BY VIDEOCONFERENCE

▶ WHY CALL ON ESIF FOR YOUR TRAINING?

ESIF is a support structure for higher education, associated with the largest higher education institutions in France, public or private, it is in synergy with the factual areas of the job market. Your future diploma training may come from university fields; faculties (National Education) or professionals; continuing education centers (Ministry of Labour).

ESIF creates the link between you and your school

Following the outbreak of the 2019 pandemic, the world began to change rapidly, and so did we. With this evolution, teaching methods are converging to adapt to this change. Indeed, the often old teaching techniques have become obsolete, essentially prohibitive for many of us and out of step with our current rhythms of life.

We imagined that knowledge can be acquired in a more attractive, more modern way and at your own pace. This is why **ESIF** has developed teaching that is closer to students and teachers.

ESIF can offer you a unique learning alternative by offering you its recognized training courses registered with the RNCP.

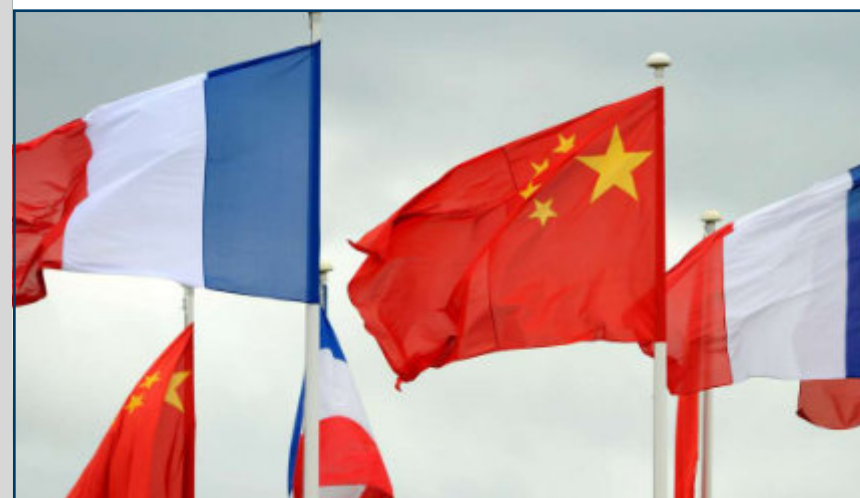

▶ IMPLEMENTATION OF YOUR TRAINING PROJECT

To support you in dealing with unknowns, **ESIF**

- Simplifies your administrative relations with an administrative connection.
- Helps you face the cultural barrier.
- Accelerates the handling of your file.
- Take charge of the imponderables.
- Reception structure, travel, round trip, Franco-Chinese taxation.

 - Acquired professional experience, associative commitment, professional project.

INTERNATIONAL EXCHANGE PROGRAMS

ERASMUS - CAMPUS FRANCE

**University exchanges between France and China are disrupted by the coronavirus*

HOW ECTS WORKS

(*European Credits Transfer System)

- ECTS points constitute a unit of measurement of diplomas common to many countries,
- ECTS points facilitate the recognition of diplomas between countries.
- They also make it possible to acquire credits in higher education establishments abroad.
- By accumulating enough E.C.T.S. you get a diploma.
- 60 European credits correspond to knowledge validated during one year. According to this standard, each semester is therefore worth 30 credits.
- The license lasts 6 semesters and corresponds to a total of 180 credits.
- The master extends over 4 semesters beyond the license, ie 120 credits.
- The doctorate corresponds to 6 semesters beyond the master's, i.e. 180 credits.
